

# PORTUNIUS

*Opportunities for an excellent scientific career in Galicia by strengthening access options and benefits associated with ERC grants*

# PORTUNIUS

**Oportunius Programme** offers opportunities to develop an **excellent scientific career in Galicia** by complementing the **European Research Council (ERC)** grants and reinforcing the access options of potential candidates.

Initiative promoted by the **Xunta de Galicia**, with the collaboration of the Galician University System (SUG) and the Spanish National Research Council (CSIC). Open to the incorporation of research organisations from the entire Galician Science and Innovation System.

## CUSTOM ITINERARIES for:

### ERC Grantees

**Incentives** for ERC grantees who choose Galicia to develop their project.

### ERC Finalists

**Financial support and training** to reinforce the options of finalists who want to develop their project in a Galician entity.

### ERC Candidates

**Advice and training** to prepare a successful application with a Galician hosting institution.

## RESULTS

**21**

Oportunius contracts for ERC grantees

**41**

ERC grantees supported

**52**

ERC grants

**31**

ERC finalists supported

**331**

ERC proposals evaluated

**30**   
**x 730**

training workshops with 730 participants

## ERC GRANTEES

Researchers of any nationality, beneficiaries of an ERC grant who wish to carry out their project in a host institution in Galicia.

**Option of a distinguished researcher contract\* with the Axencia Galega de Innovación** for the development of the project and the research career: stable working framework with evaluation every 5 years and attractive remuneration, which can be improved according to the results of each evaluation.

**PRO-ERC aid:** financial resources complementary to ERC funding, provided by the Consellería de Educación, Ciencia, Universidades e Formación Profesional, and by the Axencia Galega de Innovación **for the duration** of the project.

**POST-ERC aid:** financial support **for continuity after the end** of the ERC grant period.

Aid to reinforce projects of excellence, provided by the Consellería de Educación, Ciencia, Universidades e Formación Profesional, and by the Axencia Galega de Innovación.

Oportunius Programme additional remuneration, provided by the Axencia Galega de Innovación (for researchers contracted by the SUG or by the CSIC and included in the Oportunius Registry).

**Support services for excellent science and for the incorporation of new research staff provided by host institutions:** scientific and family welcome events, work integration and orientation, specific technical support and additional financial support for research career development.

**\* Regulatory framework of the Oportunius Programme:**

- Law 17/2022, of 5 September, amending Law 14/2011, of 1 June, on Science, Technology and Innovation.
- Decree 64/2016, of May 26, which regulates research staff contracts by the Axencia Galega de Innovación under the modality of distinguished research staff.
- Order of August 29, 2018, which develops the procedure and scale for the assessment of the research activity of personnel hired by the Axencia Galega de Innovación under the modality of distinguished research staff (Oportunius Programme).

2

## ERC FINALISTS

Researchers who submit an ERC application with a Galician host institution and reach the final stage of evaluation but are not awarded funding.

### Support to increase chances of success in future calls

Financial support, provided by the Axencia Galega de Innovación, to reinforce the scientific project and researcher's CV, if there is a commitment to reapply.

€50,000  
/2 annuities

Training and expert advice to prepare a new improved proposal, including the recommendations from the previous application assessment.

3

## ERC CANDIDATES

Researchers from any background with the potential to apply for ERC calls with any of the hosting institutions in Galicia.

### Support to assess and focus a possible proposal

Assessment of the chances of success

Training and expert advice to prepare the application to the different ERC calls

# THE RESEARCH SYSTEM IN GALICIA

Galicia has a broad and diverse R&D&I ecosystem that covers the entire value chain – from basic research to industrial production – in strategic sectors such as **life sciences and health, agri-food, and ICT**. On the other hand, its rich natural and historical-cultural heritage also places studies on **sustainability and bioeconomy**, and on **culture and society** at high levels of research excellence.

The three Galician universities and their research centres, the CSIC institutes, as well as the health research institutes, lead this excellent research. Galicia also has the Galicia Supercomputing Center (CESGA), a unique research infrastructure, and with other relevant R&D&I stakeholders such as technology centres, innovation hubs and sectoral clusters. All these entities can be host institutions for the Opportunius Programme.

## HOST INSTITUTIONS

2 specialised campuses (Vida and Terra)

289 research groups

5 research centres and 11 research institutes
